## **New Variety Introduction** **& Pest Identification and Management Seminar**

Learn about new varieties and reintroductions of flowers and plants grown in Hawaii that will be coming online for sale in the near future.

Growers will provide information for you to successfully add these plants to your gardens and landscapes to keep them fresh and exciting.

Information offered by personnel from USDA Agricultural Research Service, UH-Manoa CTAHR Cooperative Extension Service, and the Big Island Invasive Species Committee (BIISC) will help you keep your gardens and landscapes free of invasive pests. Learn how to identify, control and eradicate them.

Mark your calendars now \* There is no charge to attend \* Lunch will be served
