VOLUNTARY CODES OF CONDUCT PROGRAM (VCCP) 1

In October, 2006 the Voluntary Codes of Conduct program was presented to the Big Island Association of Nurserymen membership. Upon a board vote, BIAN will endorse the Voluntary Code of Conduct program to the membership and accepts the 16 plants listed herein as part of the program.

Each grower will decide if they wish to join the program; however, the BIAN Board of Directors resolves to encourage members to participate in the program.

There are 6 points of conduct to be adopted, and after review and discussion, the board decided to adopt the following codes:

1. Ensure that invasive potential is assessed prior to introducing and marketing plant species new to Hawaii. Invasive potential should be assessed by the introducer or qualified experts using emerging risk assessment methods that consider plant characteristics and prior observations or experience with the plant elsewhere in the world. Additional insights may be gained through extensive monitoring on the nursery site prior to further distribution.

The Big Island Association of Nurserymen will support this code by making a good faith effort to use the Hawaii Pacific Weed Risk Assessment (HPWRA) system when it is available.

2. Work with regional experts and stakeholders to determine which species in your region are either current invasive or may become invasive. Identify plants that could be suitable alternatives in your region.

The Big Island Association of Nurserymen will support this code by continuing to communicate with resource managers and plant specialists at the UH College of Tropical Agriculture & Human Resources (CTAHR).

3. Develop and promote alternative plant material through plant selection and breeding.

The Big Island Association of Nurserymen will support this code by working with and providing written support for researchers to develop sterile plant varieties (triploids) of popular invasive ornamentals.

4. Phase out existing stocks of invasive species, which are collectively agreed upon by nursery associations, government agencies, and academic research, ecology and conservation organizations as threats to our natural areas.

The Big Island Association of Nurserymen immediately discontinued the ordering upon agreement, and phased out the selling of the following plants by Dec. 31, 2008:

- a. Arundo donax (Giant Reed)
- b. Angiopteris evecta (Mule's foot fern)
- c. Buddleja madagascariensis (Smoke bush)
- d. Caesalpinia decapetala (Cat's claw)
- e. Cortaderia selloana and C. jubata (Pampas grass)
- f. Cryptostegia grandiflora, C. madagascariensis (Rubbervine)
- g. Cyathea cooperi, syn: Sphaeropteris cooperi (Australian tree fern)

VOLUNTARY CODES OF CONDUCT PROGRAM (cont'd.)

- h. Eichhornia crassipes (Water hyacinth)
- i. Hedychium gardenerianum (Kahili ginger)
- j. Macaranga mappia (Bingabing/Macaranga)
- k. Macaranga tanarius (Parasol tree/Macaranga)
- l. Melastoma candidum (Indian rhododendron)
- m. Melastoma sanguineum (Indian rhododendron)
- n. Pennisetum setaceum (Fountain grass)
- o. Rhodomyrtus tomentosa (Downy rose myrtle)
- p. Tibouchina urvilleana (Glorybush)

5. Follow all laws on importation and quarantine of plant materials across political boundaries.

The Big Island Association of Nurserymen will support this code by making an effort to learn the laws and follow them.

6. Encourage customers to use, and garden writers to promote, non-invasive plants.

The Big Island Association of Nurserymen agrees to do this wherever possible.

Each grower that is participating in the program will be designated as participants in both the BIAN Membership Directory and the BIAN website online directory.

Cooperative extension services for the nursery industry.

- **Annual Banquet:** Fellowship and camaraderie is promoted through the annual banquet held each January including the Installation of Officers and Directors and a drawing of great prizes as well as our annual Bake Off Competition.
- **Excellence Scholarship Endowment Program:** Annual scholarships are given to qualifying, deserving students enrolled in life sciences at the University of Hawaii at Hilo, with preference going to Tropical Agricultural program students.
- **Horticultural Shows & Plant Sales:** Educational Spring and Autumn Horticultural Show & Plant Sales and other periodic plant sales that help promote our members nurseries and their products and provides them with the opportunity to network with the Big Island community as well as increase sales for our members.
- **Legislative Representation:** BIAN is represented at the State and County levels for all our agricultural issues.
- **Membership Directory:** The printed and online directories highlights member nurseries, contact information, plant varieties and other pertinent information relative to the industry.
- **Promotion:** BIAN assists in promotion of the industry and member products throughout various means and presenting views of the members to the public, governmental agencies and other organizations through participation in other industry events.
- **Public Relations:** Press releases and articles about the organization and its' activities are submitted to trade journals and industry publications.
- **Research:** BIAN promotes and participates in agricultural research relative to the industry, and disseminates research findings and other scientific information to the membership.
- **Website:** Our website, <http://hawaiiplants.org>, contains all nurseries and member information as well as other educational and pertinent information for the industry and interested associates.

Mahalo for your support of tropical agriculture in Hawaii!

BIAN has donated \$15,000 to establish the BIAN Excellence Scholarship Endowment for students pursuing a degree in agriculture. Our \$15,000 contribution will be equally matched thanks to a special scholarship matching program currently available at UH Hilo.

This new scholarship program provides financial aid for students who have graduated from a high school in Hawaii and are enrolled in the College of Agriculture, Forestry and Natural Resource Management at UH-Hilo.

Criteria for this scholarship include:

- ▶ Students must achieve a minimum 3.5 GPA.
- ▶ Recipients must be full-time undergraduate or graduate students enrolled at UH-Hilo CAFNRM with preference given to students specializing in tropical horticulture or a similar area of specialization if this area no longer exists.
- ▶ Recipients must be graduates of a high school within the State of Hawaii with preference given to Big Island high school graduates. This requirement ensures that only students who've graduated from a high school in the State can receive this scholarship. Within this pool of candidates, graduates of Big Island high schools are preferred. If there are no graduates from Big Island high schools, then a student from a high school anywhere in the State can be eligible.

To learn more about this exciting new program, contact President Sean Spellicy at (808) 966-7169 or sean@rpetropicals.com.

You can make a tax deductible gift to our new BIAN endowment program in one of three ways:

- ❖ Online at www.uhfoundation.org/bianscholarship
- ❖ Send your check or money order made payable to *BIAN* to BIAN * PO Box 4365 * Hilo, HI 96721 *Write "BIAN Excellence Scholarship Endowment" in the memo section of your check.*
- ❖ Send your check or money order made payable to *UH Foundation* directly to UH Foundation * 200 W. Kawili Street * Hilo, HI 96720. *Write "BIAN Excellence Scholarship Endowment" in the memo section of your check.*

Founded in 1986, the Big Island Association of Nurserymen (BIAN) was organized to promote the nursery industry on the Big Island of Hawaii and to bring together like minded people. Since that time, the Big Island has become the hub of a \$100 million dollar statewide floriculture and nursery products industry.

With 70 members and counting, the BIAN actively participates in State and County legislative decisions, bringing forth ideas and points of view specific to people in the agricultural sector.

In furtherance of the objectives set forth in the Articles of Incorporation but not in limitation thereof, the Association shall endeavor to promote the general welfare of its members by:

1. The cultivation of acquaintanceship.
2. Featuring and promoting a greater use of nursery products.
3. The improvement and standardization of nursery products.
4. The advancement of lawful and fair trade practices, customs, and usages.
5. Continuing cooperation with all allied interests.
6. The compilation and dissemination of scientific information to Members.
7. The study of business methods and standards for recommendation to and for use by members.
8. Gathering, analyzing, and disseminating information of general interest. Securing and presenting the views of the members to the public, the governmental agencies, and to other organizations.
9. Cooperating with governmental agencies in molding policies on legislative and administrative matters in the interest of the industry and the public.
10. Promoting the exchange and sale of nursery stock and related items.
11. The exhibition of plants, fruits, flowers, or other articles produced by or used in the industry.
12. Engaging in any lawful activities which will enhance the efficient and economic progress of the industry and acquainting the public with the scope and character of these activities.

For more information on BIAN's programs, please visit our website at

<http://hawaiiplants.org> or you may write to:

BIAN * P.O. Box 4365 * Hilo, Hawaii 96721 USA

You may also contact BIAN through phone to **808-966-9926** or via email: sean@rpetropicals.com or bianjudy@gmail.com
